PROFESSIONAL SUMMARY

Product management professional with experience in stakeholder management, KPI-driven operations, and cross-functional delivery at Accenture. Proven ability to execute and optimize programs through data-driven decision-making and process improvement. Skilled in AI-driven automation, workflow optimization, and translating business problems into scalable solutions. Demonstrated ownership across end-to-end initiatives, from problem identification to execution and impact delivery.

EXPERIENCE

Accenture | Packaged Application Development Associate *Oct 2024 – Aug 2025*

Program Execution & Stakeholder Management: Owned and executed cross-functional program initiatives supporting mission-critical data operations for global enterprise clients, ensuring 99%+ system reliability and SLA adherence.

Process Optimization & Program Ownership: Led identification and prioritization of 50+ automation opportunities, driving workflow optimization and reducing operational overhead across delivery pipelines.

Data-Driven Problem Solving: Conducted root-cause analysis using Azure/Linux to resolve high-impact production issues, improving system performance and sprint execution efficiency.

KPI Tracking & Reporting: Monitored and analyzed operational KPIs, enabling data-driven decision-making and proactive issue resolution across stakeholders.

PROJECTS

[\[GitHub\]](#) MigrationOps: Cloud Deprecation Analytics Platform

Business & Program Management

- **Program Strategy & Prioritization:** Formulated a comprehensive Product Requirement Document (PRD) defining a priority segmentation matrix (P0–P3) and a 4-phase program timeline to minimize customer churn.
- **Stakeholder Management:** Designed a 4-touchpoint customer communication strategy and escalation playbook to systematically guide enterprise users through service version transitions.

[\[GitHub\]](#) Azure Synapse to Microsoft Fabric Migration Tracker

Telemetry-Driven Strategy, Playbook Development & Customer Outreach

- **Data-Driven Migration Strategy:** Designed a structured 6-step deprecation playbook that tracks active customer usage metrics against adoption timelines to safely migrate enterprise workspaces.
- **Customer Communication Execution:** Created a telemetry-driven customer outreach system featuring targeted communication queues that reference specific tenant parameters to handle high-volume migrations at scale.

[\[GitHub\]](#) CleanLabel AI - Food Ingredient Intelligence WebApp

Product Research, PRD Authoring, AI Development & Deployment

- Defined product vision and authored a PRD for an AI-powered food label analyzer; built and shipped a full-stack web app using Google Gemini API and Supabase - delivering real-time ingredient analysis, a wellness Glow Score (A-D), and healthier swap suggestions.
- Owned full product lifecycle, market research, user story mapping, database schema, API integration, and production deployment - demonstrating end-to-end product ownership across strategy, documentation, and engineering.

[\[Case Study\]](#) The Last 100 Meters - Swiggy Fleet Capacity Recovery

Product Case Study, PRD & Go-to-Market Strategy

- Identified service-experience gaps in last-mile logistics; proposed a multi-phase product roadmap to recover 1.7M hours of fleet capacity via optimized routing and user journey mapping.
- Produced BRD and feature prioritization documentation using RICE/MoSCoW frameworks, aligned with business OKRs and go-to-market strategy for high-impact feature delivery.

SKILLS & TOOLS

Program & Operations: Stakeholder Management, Program Execution, KPI Tracking, Process Optimization, Cross-Functional Collaboration, SLA Management, Customer Outreach, Playbook Development

Data & Analytics: Data Analysis, KPI Reporting, SQL, KQL (Kusto Query Language), Power BI, Telemetry Analytics

AI & Automation: Workflow Automation, LLM Integration (Claude/ GPT), n8n

Tools & Technologies: Azure, Jira, Linux, Google Sheets, Excel, Notion

EDUCATION

Bachelor of Computer Applications (BCA) - SDM College, Mangalore 2021 - 2024 GPA: 8.91/10 | Awarded "Best Outgoing Student" for leadership excellence
